---

Awesomenauts is a 2D sidescroller multiplayer action game that puts you and your enemies in an epic battle for control of the galaxy! Play as one of eight action-packed characters - each with their own hilarious abilities, like Mega Man-style aim-boosts and Pink Elephants that eat boogers! Each character has their own special gimmick, ranging from swift sonic booms to earth-shattering ground-shaking powerups. Use your special abilities and unleash an array of devastating skill shots and devastating combos on your enemies! Use teamwork tactics to battle in epic arenas, including team-oriented playfields and control-oriented mini-games! Take control of the battlefield with your own custom-created epic kills - complete to satisfy your humor-driven gameplay desires! Awesomenauts is the classic mix of over-the-top wackiness and high-octane fun for the entire family! It's Awesomenauts, now in bed! ----- Key Features: • Play as eight hilarious action-packed characters, each with their own epic special abilities and one-of-a-kind playstyle • Battle through 20 colorful arenas, including team-oriented playfields and control-oriented mini-games, for a total of 40 battle-ready arenas to experience • Each character can use a total of 11 abilities, with fun skill shots and devastating combos • Team up with up to three friends and battle for control of the galactic battlefield with an array of creative strategies and cooperative gameplay • Immerse yourself in the story of the Awesomenauts universe with epic cutscenes and an original soundtrack • Worldwide Ranking system for all players and Global Leaderboards ----- Wanna talk about Awesomenauts? We'd love to hear from you! Please visit us at: [www.awesomenauts.com](http://www.awesomenauts.com) and follow us on Twitter @Awesomenauts. You can also find us on Facebook at [www.facebook.com/awesomenauts](http://www.facebook.com/awesomenauts). Global Affairs Canada (GAC) announced that as of August 17, 2020, Canada has suspended the issuance of visas for nationals of Lebanon, Palestine, and Yemen due to the ongoing global health emergency. These restrictions will remain in place until further notice. This suspension applies to all direct entry points in Canada for visitors who require a visa to visit Canada. This means that the Visa Application Centre in Cairo, Egypt, will be closed until further notice. This includes the arrival

## **Features Key:**

- Customized difficulty levels in hard, medium, and easy with extended blood ingame!
- Play as the more "charismatic" of the pair: Wise-Man or Wild-Boy.
- Play after being resurrected as a "thirsty" rogue?
- Can change your sex in game!
- Playtime of about 3 hours by default.

## **ROUGH KUTS: The Thirsty Dead**

Soul Reaper is a turn-based RPG that rewards careful planning and meticulous strategy. After surviving a psyche-splitting attack from The Midnight Council, players take control

---

of the Soul Reaper as he quests to rebuild his army and become whole once again. By defeating monsters in combat, users can reap the souls of their enemies and allocate them to serve several unique purposes. Souls can be: Organized into 3x3 battle squads to fight in combat. Fused with other souls to boost a creature's XP. Devoured by the Soul Reaper himself to advance his own stats. Smithed into loot pieces that both the Soul Reaper and his troops can wear. Slotted into equipment to add or enhance attributes. With many ways to divvy up your souls, it's up to you to decide how best to utilize this vital resource. Scour the land in search for treasure to help you on your journey, and unlock new abilities on the overworld by bringing bosses to their knees. Regain your emotions by slaying the sentient Reaper Fragments, and defeat The Midnight Council before The Vault comes crashing down with you inside it. Soul Reaper draws inspiration from both classic and contemporary RPG titles. Some games you might be reminded of while playing are: Pokemon: Once you're hooked on collecting souls, you'll wanna reap 'em all. Diablo: Loot with more stats than you can shake a '+50% stick-shaking' stick at. Final Fantasy: Side view turn-based combat, just like the old days! Castlevania: Aria/Dawn of Sorrow: Slay monsters, get souls. Repeat. Features 80+ Creatures to Reap and Collect. Encounter unique and expressive monsters throughout The Vault. Arrange your creatures in up to nine squads, or slot them into loot pieces for extra bonuses. Have a few souls you don't want? Smith them into items, or devour them for quick XP! Explore Vast Landscapes for Treasure. The Vault is comprised of three layers: Volcanheim, Elysium, and Polarus. Each component presents a drastically different climate, with treasure chests scattered throughout each zone. Addictive Turn-Based Combat With Deep Strategy. Exploit type advantages, unit arrangement, and more to turn the tide in your favor. Slot souls into the Soul Reaper's equipment to unlock more attacks, and command your squads to victory. Fight at Your Own Pace. Accelerate the game's battle speed up to x3, or outmaneuver

## **What's new:**

---

**A MASTERPIECE by the greatest adventure game writer of all time. [Note: While we generally maintain strong relationships with indie game developers, we sometimes do so-called 'large-budget' titles through our partnership with Gravity, creator of the critically acclaimed game Metro 2033. As with the forthcoming Metro 2033 sequel, The Thirsty Dead, our relationship with them is purely professional; our involvement with the game does not affect ROUGH KUTS.] Kia ora, friends. Last week, we posted our picks for our list of the best adventure game writers. We want to throw another one-up and show you who some of the true masters of the form are. Not the people who have written well-regarded games in other genres, and been assigned other forms of self-expression - the writers of adventure game engines, RPGs, puzzle games, and platformers, for example, who might be standing next to you in a crowd of people and not even know it. No, the real masters of the form are those writers who can navigate its dense sub-sub-sub-genres. When you can pull off one extraordinary vision at a time. They are the designers who, if given the challenge of re-designing one of the traditional characters from Indiana Jones in the character of Napoleon marching through his overwrought classic Elba, can sum that up so vividly; the ones who can pull off one hell of a quest like that real-time Mario 64 acrobatics clip in just one episode of television, and then bring that totally different and compelling story to the next episode. They are the ones who, if given the option, will take that infant form of, say, Lara croft and change it forever, becoming a complete whole that is in every way a brand new character, from her clothing, movement, and story to her skin tone, hair, and background. And these are the masters of that form. I want to honour them. Which is why I have chosen, as you may have guessed, the game writers. The writers of the best adventure games are: Merry Christmas, all. The next few weeks will be pretty heavy on the computer gaming front, starting with The Elder Scrolls V: Skyrim, and also a couple of**
